**General Announcement 2016_06 –
Re: The Republic of Fiji Offshore Vehicle Inspection AGE LIMIT**

Dear Stakeholder,

Thank you for your continued support of the Fiji used vehicle pathway. JEVIC is working hard with all stakeholders to ensure the continued trade and smooth process.

Pursuant to the import requirements of Fiji, JEVIC would like to remind Exporters and all stakeholders that as the end of the year approaches to be aware of the change of year of manufacture accepted into Fiji on arrival.

Used vehicles that are allowed to be imported into Fiji;

- are not more than **5 years** from their year of manufacture for **diesel and unleaded fuel vehicles**

- are not more than **8 years** from their year of manufacture for **LPG, CNG, solar vehicles, electric vehicles and hybrid vehicles**

Please contact the Fiji Revenue & Customs Authority (FRCA) for more information.

We look forward to your support of this important initiative. Further details are available on the JEVIC website, however should you have any questions or require further information please do not hesitate to contact your local JEVIC representative.

Please note that meeting the age limit requirements for importation is the clients responsibility, and JEVIC accepts no accountability for any unit not conforming to these limits upon importation to Fiji.

Sincere regards,

JEVIC
