**Fiji Offshore Vehicle Inspection Announcement 2016_06a
Age Limitation and the Incoming New Year**

Dear Customers,

Thank you for your continued support of the Fiji used vehicle pathway.

As a reminder, it is recommended that inspections for the following vehicles are completed by the 1st of December 2016:

- * 2011 Year of Manufacture (YOM) vehicles (diesel and unleaded fuel)
- * 2008 YOM (LPG, CNG, solar, electric and hybrid vehicles)

This is to allow sufficient shipping time to ensure subject vehicles arrive in Fiji prior to the end of this year (2016).

From the 2nd of December 2016 for any vehicles falling into the YOM categories mentioned above, at the time of booking, clients will need to complete the attached declaration form.

Your assistance is appreciated in ensuring compliance to the Fijian regulations.

Regards

JEVIC Administration
